Mapping by: K. McKenna  
Compiled by: B. Elder, D. Sacco & R. McKillop

Basemap imagery provided by mapbox.com. Interpretations were made based on 2013-2016 imagery. Boundaries of disturbance were derived based on 2016 imagery and 2013-2017 field observations. Wetland and upland habitat were identified using algorithms derived from data provided by Ducks Unlimited.

Contours and watercourses provided by Yukon Resources Canada. Contours are displayed at a scale of 1:50,000. Contour information derived under the Open Government Licence - Canada.
