Mark Prins

Dear Mark Prins:

Re: Class 1 Notification P2022_0001 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2022_0001 is valid as of February 02, 2022.

Your Class 1 Notification and proposed work program (March 01, 2022 - October 01, 2022) is allowed to proceed with the following terms and conditions:

- Drill holes shall be decommissioned and backfilled or plugged to avoid wildlife entrapment.
- The notification area overlaps with a moose late-winter range wildlife key area. The operator should plan activities to avoid use of the area in late-winter (Jan 1st – April 30th).
- The operator shall avoid land clearing within 1 km of any observed active raptor nests between May 1st and August 15th.
- The location of active raptor nests identified by the operator shall be reported to Environment Yukon, Conservation Data Centre at yukoncdc@yukon.ca.
- The operator shall not fly unmanned aerial vehicles (drones) within 500 m of an observed active raptor nest during the nesting period.

- The notification area is in a fossil bearing drainage. As per the Schedule 1 Operating Conditions, all palaeontological resources uncovered during operations must be reported to the Yukon government.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on January 31, 2023 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-667-3190, fax at 867-667-5150, or email at whitehorse.mining@yukon.ca.

Sincerely,
Saleem Dar

A/Chief of Placer Land Use
