Morgan Fraughton

Dear Morgan Fraughton:

Re: Class 1 Notification P2022_0080 - Lease ID01975 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2022_0080 - Lease ID01975 is valid as of May 06, 2022.

Your Class 1 Notification and proposed work program (May 06, 2022 - May 06, 2023) is allowed to proceed with the following terms and conditions:

- The map provided identifies areas with elevated potential for heritage resources. The operator shall avoid ground disturbing activities within these areas unless prior approval has been granted by the Heritage Resources Unit. The operator may contact Holly Smith at the Heritage Resources Unit (867-332-4057 or holly.smith@yukon.ca) for more information on the areas of heritage potential to discuss potential mitigation options prior to conducting any ground disturbing activities.
- There are documented archaeological sites within the notification area, as identified on the map provided. The operator shall not engage in any ground-disturbing activities within 30 m of the site unless prior approval has been granted by the Chief

of Placer Land Use. The operator is encouraged to contact Holly Smith at the Heritage Resources Unit (867-332-4057 or holly.smith@yukon.ca) for information on the archaeological sites to discuss potential mitigation options prior to conducting any ground disturbing activities.

- The notification area is in a fossil bearing drainage. As per the Schedule 1 Operating Conditions, all palaeontological resources uncovered during operations must be reported to the Yukon Government.
- You are reminded that a leave strip is required for all placer streams for the protection of riparian areas. This area of the Yukon River North watershed has a low habitat suitability classification, as defined in the Fish Habitat Management System for Yukon's Placer Mining, requiring a 5 meter leave strip. Please see the document attached for more information and appropriate setbacks. You are also reminded of the Schedule 1 Operating Condition that "all reasonable care must be taken in carrying out exploration activities near or adjacent to a water body to prevent sediment from entering a water body, unless otherwise permitted by law." Any deposit of waste (i.e. dirty water) requires the activity to be licensed regardless of the quantity of water being disposed.
- The claim(s) included in the notification also overlaps with wildlife key area for moose. To reduce impacts to moose, best management practices are encouraged and all wildlife should be given the right of way.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on May 06, 2023 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-993-5343, fax at 867-993-6747, or email at dawson.mining@yukon.ca.

Sincerely,
Bobbie Milnes
