Tyrell Sutherland

Dear Tyrell Sutherland:

Re: Class 1 Notification P2022\_0124 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2022\_0124 is valid as of May 19, 2022.

Your Class 1 Notification and proposed work program (May 19, 2022 - October 01, 2022) is allowed to proceed with the following terms and conditions:

- The map provided identifies areas with elevated potential for heritage resources. The operator shall avoid ground disturbing activities within these areas unless prior approval has been granted by the Heritage Resources Unit. The operator may contact Holly Smith at the Heritage Resources Unit (867-332-4057 or holly.smith@yukon.ca) for more information on the areas of heritage potential to discuss potential mitigation options prior to conducting any ground disturbing activities.
- The proponent shall communicate plans and timing of activities to the First Nation of Na-Cho Nyäk Dun Lands and Resources Department ext 141.
- The operator shall backfill each trench once a geological evaluation of the trench has been completed or prior to the end of the work program date identified in this Class

- 1, whichever occurs first.
- The operator shall install and maintain safety fencing around all trench deeper than two meters and install covers over the openings of all trench with logs, or similar material capable of preventing people or wildlife from inadvertently falling into the trench.
  - Upon discovery of a heritage resource the proponent shall notify the Heritage Department of First Nation Na-Cho Nyäk Dun (867-996-2265 ext.116) in addition to the Government of Yukon, Chief of Mining Lands and Heritage Department.
  - The operator should share wildlife observation information with First Nation of Na-Cho Nyäk Dun Lands and Resources Department ext 141.
  - If active bird nests are discovered, project activities shall be postponed in the nesting area until nesting is complete.
  - You are reminded of Schedule 1 Operating Condition #17 which states: "A spill contingency plan for petroleum products and other hazardous substances must be prepared and posted in the camp and at all fuel handling locations used in carrying out the operation."

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on October 01, 2022 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-996-2256, fax at 867-996-2617, or email at [mayo.mining@yukon.ca](mailto:mayo.mining@yukon.ca).

Sincerely,  
Bobbie Milnes

Chief of Placer Land Use
