Elden Curtis

Dear Elden Curtis:

Re: Class 1 Notification P2022\_0154 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2022\_0154 is valid as of June 04, 2022.

Your Class 1 Notification and proposed work program (June 04, 2022 - June 03, 2023) is allowed to proceed with the following terms and conditions:

- You are reminded that you must comply with the Schedule 1 Operating Conditions, especially #33, which states: "All reasonable care must be taken in carrying out an operation near or adjacent to a water body to prevent sediment from entering a water body, unless otherwise permitted by law." You are also reminded that a leave strip is required for all placer streams for the protection of riparian areas, and its dimensions are dependent on the stream's habitat suitability classification as defined in the Fish Habitat Management System for Yukon's Placer Mining.
- You are reminded of Schedule 1 Operating Condition #17 which states: "A spill contingency plan for petroleum products and other hazardous substances must be prepared and posted in the camp and at all fuel handling locations used in carrying out the operation."

- Earthworks shall be sloped at one end to allow for wildlife escapement and shall be reclaimed as soon as they are no longer required for mining purposes.
- The operator shall backfill each [trench/shaft] once a geological evaluation of the [trench/shaft] has been completed or prior to the end of the work program date identified in this Class 1, whichever occurs first.
- The proponent shall communicate plans and timing of activities to the First Nation of Na-Cho Nyäk Dun.
- If active bird nests are discovered, project activities shall be postponed in the nesting area until nesting is complete.
- The operator should share wildlife observation information with First Nation of Na-Cho Nyäk Dun.
- Upon discovery of a heritage resource the proponent shall notify the Heritage Department of First Nation Na-Cho Nyäk Dun (867-996-2265 ext.116) in addition to the Government of Yukon, Chief of Mining Lands and Heritage Department.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on June 03, 2023 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-996-2256, fax at 867-996-2617, or email at [mayo.mining@yukon.ca](mailto:mayo.mining@yukon.ca).

Sincerely,  
Tamera Johnson

A/Chief of Placer Land Use
