Sungod Industries Ltd.

Dear Daniel d'Entremont:

Re: Class 1 Notification P2022_0208 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2022_0208 is valid as of August 01, 2022.

Your Class 1 Notification and proposed work program (August 01, 2022 - July 31, 2023) is allowed to proceed with the following terms and conditions:

- The operator shall install and maintain safety fencing around all trenches/shafts deeper than two meters and install covers over the openings of all trenches/shafts with logs, or similar material capable of preventing people or wildlife from inadvertently falling into the trenches/shafts.
- The operator shall backfill each trench/shaft once a geological evaluation of the trench/shaft has been completed or prior to the end of the work program date identified in this Class 1, whichever occurs first.
- The notification area overlaps with a moose late-winter range wildlife key area. Typically, placer exploration activities are carried out outside of winter months, however, activities have been proposed to occur year round. As such, the operator should plan activities to avoid use of the area in late-winter (Jan 1st – April 30th).

- The notification area is in a fossil bearing drainage. As per the Schedule 1 Operating Conditions, all palaeontological resources uncovered during operations must be reported to the Yukon Government.
- If a mineral lick is identified within the project area, the Proponent shall contact the Northern Yukon Regional Biologist at (867) 996-2162 for additional guidance and mitigation measures.
- The claims included in this notification overlap with trapping concessions #31 and may overlap with other guided recreational tours. You are encouraged to communicate plans and timing of activities to other land and resource users that may be affected by the proposed project (e.g. outfitter, Wilderness Tourism Association of Yukon, etc.) as soon as practicable and prior to the commencement of project activities to identify and resolve potential land use conflicts and any potential negative effects on other users.
- The operator shall allow unimpeded access through the project site to First Nation citizens undergoing traditional pursuits.
- The operator shall communicate plans and timing of activities to affected First Nations as well as other land and resource users that may be affected by the proposed project as soon as practicable and prior to the commencement of project activities to identify and resolve potential land use conflicts and any potential negative effects on other users.
- Upon discovery of a heritage resource the operator shall notify the Heritage Department of Tr'ondëk Hwëch'in in addition to the Government of Yukon, Chief of Mining Lands and Heritage Department.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on July 31, 2023 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-993-5343, fax at 867-993-6747, or email at dawson.mining@yukon.ca.

Sincerely,
Jennifer Walters

A handwritten signature in blue ink, appearing to read "Jennifer Walters". The signature is fluid and cursive, with the first name being more prominent.
