Dustin Weatherly

Dear Dustin Weatherly:

Re: Class 1 Notification P2022_0354 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2022_0354 is valid as of October 14, 2022.

Your Class 1 Notification and proposed work program (October 14, 2022 - October 13, 2023) is allowed to proceed with the following terms and conditions:

- The notification area is in a fossil bearing drainage. As per the Schedule 1 Operating Conditions, all palaeontological resources uncovered during operations must be reported to the Yukon government.
- You are reminded that a leave strip is required for all placer streams for the protection of riparian areas, and its dimensions are dependent on the stream's habitat suitability classification as defined in the Fish Habitat Management System for Yukon's Placer Mining. Please see the document attached for more information and appropriate setbacks. You are also reminded of the Schedule 1 Operating Condition that "all reasonable care must be taken in carrying out exploration activities near or adjacent to a water body to prevent sediment from entering a water body, unless otherwise permitted by law." Any deposit of waste (i.e. dirty water)

requires the activity to be licensed regardless of the quantity of water being disposed.

- The map provided identifies areas with elevated potential for heritage resources. The operator shall avoid ground disturbing activities within these areas unless prior approval has been granted by the Heritage Resources Unit. The operator may contact Michael Grooms at the Heritage Resources Unit (867-334-6619 or michael.grooms@yukon.ca) for more information on the areas of heritage potential to discuss potential mitigation options prior to conducting any ground disturbing activities.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on October 13, 2023 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-993-5343, fax at 867-993-6747, or email at dawson.mining@yukon.ca.

Sincerely,
Bobbie Milnes
