Dear Hector Renaud:

Re: Class 1 Notification P2023_0007 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2023_0007 is valid as of February 08, 2023.

Your Class 1 Notification and proposed work program (May 01, 2023 - September 30, 2023) is allowed to proceed with the following terms and conditions:

1. You are reminded of Schedule 1 Operating Condition #17 which states: "A spill contingency plan for petroleum products and other hazardous substances must be prepared and posted in the camp and at all fuel handling locations used in carrying out the operation."
2. The operator shall install and maintain safety fencing around all trenches/shafts deeper than two meters and install covers over the openings of all trenches/shafts with material capable of preventing people or wildlife from inadvertently falling into the trenches/shafts.
3. If active bird nests are discovered, project activities shall be postponed in the nesting area until nesting is complete.
4. The operator should share wildlife observation information with the First Nation of Na-

- Cho Nyäk Dun Lands and Resources Department (867-996-2265 ext. 141).
5. Upon discovery of a heritage resource the proponent shall notify the Heritage Department of First Nation Na-Cho Nyäk Dun (867-996-2265 ext.116) in addition to the Government of Yukon, Chief of Mining Lands and Heritage Department.
 6. The proponent shall communicate plans and timing of activities to the First Nation of Na-Cho Nyäk Dun Lands and Resources Department (867-996-2265 ext. 150).
 7. The operator shall cease work when any moose are observed on active claim blocks until moose move off on their own accord.
 8. The notification area has been identified to have potential for unmarked burial grounds and/or gravesites. If burial or human remains are discovered, exploration activities shall cease. A minimum 30m buffer must be established around the site preventing any further disturbance. The burial grounds and/or human remains site shall be reported immediately to the RCMP and permitting authority. All crew members should familiarize themselves with the Guidelines Respecting the Discovery of Human Remains and First Nation Burial Sites in the Yukon:
<https://yukon.ca/sites/yukon.ca/files/emr/emr-guidelines-discovering-human-remains.pdf>

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on February 03, 2024 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-996-2256, fax at 867-996-2617, or email at mayo.mining@yukon.ca.

Sincerely,
Kelly Constable

Kelly Corstius
