Dear Mark Prins,

Re: Class 1 Notification P2023\_0151 - IW00824 - UN-NAMED RL TRIB KLAZA RIVER  
Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2023\_0151 is valid as of  
November 02, 2023.

Your Class 1 Notification and proposed work program (November 02, 2023 - November  
02, 2024) is allowed to proceed with the following terms and conditions:

1. The operator shall conclude activities by September 15 each year to avoid disturbing caribou breeding activities.
2. The operator shall suspend exploration activities if caribou are within 1 km of active work areas until they move away voluntarily.
3. To reduce effects to caribou, the operator shall follow applicable Flying in Caribou Country guidelines, when safe to do so, including: a. At all times of year, maintain over-flight altitudes at least 300 m (1,000 ft.) above ground level. b. During sensitive times of the year (rutting), maintain over-flight altitudes at least 600 m (2, 000 ft.)

- above ground level.
4. The operator shall install and maintain safety fencing around all trenches/shafts deeper than two meters and install covers over the openings of all trenches/shafts with a material capable of preventing people or wildlife from inadvertently falling into the trenches/shafts.
  5. The operator shall backfill each trench/shaft once a geological evaluation of the trench/shaft has been completed or prior to the end of the work program date identified in this Class 1, whichever occurs first.
  6. The operator shall plan flight routes to avoid flying over any observed active raptor nests, or if it cannot be avoided, fly at a minimum of 600 m above ground level when safe to do so.
  7. The operator shall report observed raptor nest sites to Environment Yukon conservation Data Centre at yukoncdc@yukon.ca.
  8. The operator shall avoid land clearing within 1 km of observed raptor nests between May 1 and August 15.
  9. The map provided identifies areas with elevated potential for heritage resources. The operator shall not conduct land-altering activities within these areas unless prior approval has been granted by the Heritage Resources Unit. The operator may contact heritage.review@yukon.ca for more information on the areas of heritage potential or to discuss potential mitigation options.
  10. The operator shall not restrict access, availability and use of the area for traditional harvest purposes.
  11. You are reminded that a leave strip is required for all placer streams for the protection of riparian areas. This creek has a [low] habitat suitability classification, as defined in the Fish Habitat Management System for Yukon's Placer Mining, requiring a [5] meter leave strip. Please see the document attached for more information and appropriate setbacks. You are also reminded of the Schedule 1 Operating Condition #33 that states "all reasonable care must be taken in carrying out exploration activities near or adjacent to a water body to prevent sediment from entering a water body, unless otherwise permitted by law." Any deposit of waste (i.e. dirty water) requires the activity to be licensed regardless of the quantity of water being disposed.
  12. The operator shall not operate heavy equipment between the hours of seven o'clock at night and seven o'clock in the morning (7:00 p.m. to 7:00 a.m.).
  13. The operator shall communicate plans and timing of activities to the affected First Nations and other land and resource users (i.e. outfitters, trappers) as soon as practicable and prior to the commencement of project activities to identify potential land use conflicts and any other potential negative effects on other users. The operator shall make best efforts to resolve these issues.
  14. Upon discovery of a heritage resource, the operator shall notify Little Salmon Carmacks First Nation Heritage Manager at (867) 863-5831 or toni.blanchard@lscfn.ca.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on November 02, 2024 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-667-3190, fax at 867-667-5150, or email at [whitehorse.mining@yukon.ca](mailto:whitehorse.mining@yukon.ca).

Sincerely,  
Paul Inglis

A handwritten signature in blue ink that reads "Paul Inglis". The signature is written in a cursive style with a large, looping "P" and "I".
