Dear Zlatco Fras,

Re: Class 1 Notification P2024\_0029 - Bonanza drilling Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2024\_0029 is valid as of June 01, 2024.

Your Class 1 Notification and proposed work program (June 01, 2024 - May 31, 2025) is allowed to proceed with the following terms and conditions:

1. The operator shall avoid exploration and exploration related activities in wetlands, if avoidance is not possible, the operator shall minimize disturbance to wetlands.
2. All reclamation must be completed prior to the end of the work program date identified in this Class 1 notification, including but not limited to: closure of all test pits, trenches, hand shafts, removal of camps, etc. Reclamation must be completed to the standards listed in the Operating Conditions, Schedule 1 of the Placer Mining Land Use Regulation/Quartz Mining Land Use Regulation. In areas where wetlands have been disturbed, reclamation shall be done in a manner that supports the return

- of wetland benefits to those areas.
3. The operator shall allow unimpeded access through the project site to First Nation citizens undergoing traditional pursuits.
  4. The operator shall provide Tr'ondëk Hwëch'in ("TH") with an Access Notice Certificate in advance if they plan to access TH parcel R-20A and/or C-13B. Contact TH, Land and Resources Branch at 867-993-7100.
  5. Please note, a leave strip is required for all placer streams for the protection of riparian areas. This creek has a moderate-low habitat suitability classification, as defined in the Fish Habitat Management System for Yukon's Placer Mining, requiring a 10 meter leave strip. Please see the document attached for more information and appropriate setbacks. Please also note, Schedule 1 Operating Condition #33 "all reasonable care must be taken in carrying out exploration activities near or adjacent to a water body to prevent sediment from entering a water body, unless otherwise permitted by law." Any deposit of waste (i.e. dirty water) requires the activity to be licensed regardless of the quantity of water being disposed.
  6. Upon discovery of a heritage resource the proponent shall notify the Heritage Department of Tr'ondëk Hwëch'in First Nation (867-993-7100), in addition to the Government of Yukon, Manager, Mining Lands and Heritage Branch.
  7. The operator shall not alter, disturb, or destroy any existing roads or trails. The operator shall maintain a 30m buffer from the Trochek Trail.
  8. Drill holes shall be decommissioned and backfilled or plugged to avoid wildlife entrapment.
  9. The notification area is in a fossil-bearing drainage. As per the Schedule 1 Operating Conditions, all palaeontological resources uncovered during operations must be reported to the Government of Yukon and the affected First Nation on whose traditional territory the resources are uncovered.
  10. There are documented historical features within the notification area, as identified on the map provided. The operator shall not conduct any land-altering activities within 30 m of the(se) site(s) unless prior approval has been granted by the Manager, Mining Land Use. The operator is encouraged to contact Lee Whalen at the Historic Sites Unit (lee.whalen@yukon.ca) for more information on the historic features.

For greater certainty, the conditions contained in this Notification pertain only to my authorities under the *Placer Mining Act* and do not limit the authorizations, prohibitions, or restrictions in other federal, territorial or municipal laws.

Security may be required at any time by the Manager, Mining Land Use. The operator must furnish security within thirty (30) days of receiving the written notice from the Manager, Mining Land Use of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work

occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on May 31, 2025 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-993-5343, fax at 867-993-6747, or email at [dawson.mining@yukon.ca](mailto:dawson.mining@yukon.ca).

Sincerely,  
Tamera Johnson
