Erini Petroutsas

Dear Erini Petroutsas:

Re: Class 1 Notification Q2022_0057 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification Q2022_0057 is valid as of May 01, 2022.

Your Class 1 Notification and proposed work program (May 01, 2022 - April 30, 2023) is allowed to proceed with the following terms and conditions:

- No specific work areas were noted in the application; therefore, it was not possible to provide information on heritage resources. If the proponent identifies work that involve ground disturbing activities, heritage values would need to be assessed and provided. At this time, no ground disturbing/altering activity shall take place within the project claims, until clearance has been given for heritage values. The proponent shall contact Holly Smith at the Heritage Resources Unity (867-332-4057 or holly.smith@yukon.ca) for information on heritage resources prior to conducting any ground disturbing activities.
- The notification area overlaps with a moose late-winter range wildlife key area. Typically, placer exploration activities are carried out outside of winter months, however, activities have been proposed to occur year round. As such, the operator

- should plan activities to avoid use of the area in late-winter (Jan 1st – April 30th).
- Earthworks shall be sloped at one end to allow for wildlife escapement and shall be reclaimed as soon as they are no longer required for mining purposes.
 - Any brushing for temporary trails should be done in such a way as to not hinder wildlife movement through the stockpiling of brush material.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Quartz Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on April 30, 2023 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Quartz Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-993-5343, fax at 867-993-6747, or email at dawson.mining@yukon.ca.

Sincerely,
Bobbie Milnes

Chief of Mining Land Use
