Archer, Cathro & Associates (1981) Limited

Dear Heather Burrell:

Re: Class 1 Notification Q2022_0108 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification Q2022_0108 is valid as of May 18, 2022.

Your Class 1 Notification and proposed work program (June 01, 2022 - October 01, 2022) is allowed to proceed with the following terms and conditions:

- The operator shall store all attractants, including garbage, kitchen waste and strained solids from grey water in a container that prevents access by bears and other wildlife, until properly disposed of according to the Solid Waste Regulation or burned daily to ash by forced air and fuel fired incineration according to the Air Emissions Regulations.
- The operator shall install an electric fence around the food preparation and storage area, grey water sump and incinerator.
- The operator shall conclude activities in caribou fall breeding wildlife key areas as identified on GeoYukon by September 15th each year.
- The operator shall cease work when any caribou are observed on active claim blocks until caribou move off on their own accord.

- Please note that, due to the size of the notification area, the heritage assessment was limited to the specific camp areas (claims DDD315, DDD317, and DDD525) that were provided by the applicant. If the proponent identifies additional work areas (particularly trenching locations), that involve ground disturbing activities, the operator shall contact Holly Smith at the Heritage Resources Unit (867-332-4057 or holly.smith@yukon.ca) for information on heritage values as an additional heritage assessment may be required, or to discuss potential mitigation options prior to conducting any ground disturbing activities.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Quartz Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on May 17, 2023 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Quartz Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-667-3190, fax at 867-667-5150, or email at whitehorse.mining@yukon.ca.

Sincerely,
Bobbie Milnes
