By Email

Snowline Gold Corp

Dear Senoa Gold Corp:

Re: Class 1 Notification Q2022_0181 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification Q2022_0181 is valid as of June 28, 2022.

Your Class 1 Notification and proposed work program (June 28, 2022 - June 27, 2023) is allowed to proceed with the following terms and conditions:

- The operator shall install and maintain safety fencing around all trenches deeper than two meters capable of preventing people or wildlife from inadvertently falling into the trenches.
- The operator shall cease work when any sheep are observed on active claim blocks until the sheep move off on their own accord.
- Earthworks shall be sloped at one end to allow for wildlife escapement and shall be reclaimed as soon as they are no longer required for mining purposes.
- There is a known mineral lick(s) in the vicinity of the project area. The operator shall contact the Mayo Regional Biologist (867-996-2162) for information on the exact location of mineral lick(s) in the vicinity of the project area. If a mineral lick is identified within the project area, the operator shall maintain a 100m no-disturbance

buffer around the location of the mineral lick unless specified in writing from the Chief, Placer Land Use.

- You are reminded of Schedule 1 Operating Condition #17 which states: "A spill contingency plan for petroleum products and other hazardous substances must be prepared and posted in the camp and at all fuel handling locations used in carrying out the operation."
- The operator should share wildlife observation information with First Nation of Na-Cho Nyäk Dun Lands and Resources Department 867-996-2265 ext. 141.
- If active bird nests are discovered, project activities shall be postponed in the nesting area until nesting is complete.
- The operator shall cease work when any caribou are observed on active claim blocks until caribou move off on their own accord.
- Upon discovery of a heritage resource the proponent shall notify the Heritage Department of First Nation Na-Cho Nyäk Dun (867-996-2265 ext.116) in addition to the Government of Yukon, Chief of Mining Lands and Heritage Department.
- The proponent shall communicate plans and timing of activities to the First Nation of Na-Cho Nyäk Dun Lands and Resources Department 867-996-2265 ext. 141.
- The map provided identifies areas with elevated potential for heritage resources. The operator shall avoid ground disturbing activities within these areas unless prior approval has been granted by the Heritage Resources Unit. The operator may contact Holly Smith at the Heritage Resources Unit (867-332-4057 or holly.smith@yukon.ca) for more information on the areas of heritage potential to discuss potential mitigation options prior to conducting any ground disturbing activities.
- Please note that due to the size of the notification area the heritage assessment was limited to proposed work areas. The operator shall contact Holly Smith at the Heritage Resources Unit (867-332-4057 or holly.smith@yukon.ca) for information on heritage values should your work locations change as additional heritage assessment may be required, or to discuss potential mitigation options prior to conducting any ground disturbing activities.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Quartz Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on June 27, 2023 and all reclamation must be

completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Quartz Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-996-2256, fax at 867-996-2617, or email at mayo.mining@yukon.ca.

Sincerely,
Bobbie Milnes
