By Email

Sylvain Montreuil

Dear Sylvain Montreuil:

Re: Class 1 Notification Q2022\_0195 - Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification Q2022\_0195 is valid as of June 29, 2022.

Your Class 1 Notification and proposed work program (June 29, 2022 - June 28, 2023) is allowed to proceed with the following terms and conditions:

- The notification area is in a fossil bearing drainage. As per the Schedule 1 Operating Conditions, all palaeontological resources uncovered during operations must be reported to the Yukon government.
- The map provided identifies areas with elevated potential for heritage resources. The operator shall avoid ground disturbing activities within this/these area(s) unless prior approval has been granted by the Heritage Resources Unit. The operator may contact Holly Smith at the Heritage Resources Unit (867-332-4057 or [holly.smith@yukon.ca](mailto:holly.smith@yukon.ca)) for more information on the areas of heritage potential to discuss potential mitigation options prior to conducting any ground disturbing activities.
- Only the specific work areas and priority claims that were provided by the applicant

were assessed for historic sites, archaeological sites, and heritage potential. The operator is encouraged to contact Holly Smith at the Heritage Resources Unit (867-332-4057 or holly.smith@yukon.ca) if the proponent identifies additional work areas that involve ground disturbing activities, heritage values would need to be assessed. At this time no additional ground disturbing/altering activity should take place within the project claims, until clearance has been given for heritage values (other than general rock and soil sampling).

- The operator shall cease work when any caribou are observed on active claim blocks until the caribou move off on their own accord.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Quartz Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on June 28, 2023 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Quartz Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-993-5343, fax at 867-993-6747, or email at dawson.mining@yukon.ca.

Sincerely,  
Bobbie Milnes

Chief of Mining Land Use
