Dear Cameron Norton,

Re: Class 1 Notification Q2023_0163 - Wells Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification Q2023_0163 is valid as of June 02, 2023.

Your Class 1 Notification and proposed work program (June 02, 2023 - June 01, 2024) is allowed to proceed with the following terms and conditions:

1. The notification area is in a fossil-bearing drainage. As per the Schedule 1 Operating Conditions, all palaeontological resources uncovered during operations must be reported to the Government of Yukon and the Yukon First Nation on whose traditional territory the resources are uncovered.
2. The map provided identifies areas with elevated potential for heritage resources. The operator shall not conduct land-altering activities within these areas unless prior approval has been granted by the Heritage Resources Unit. The operator may contact heritage.review@yukon.ca for more information on the areas of heritage potential or to discuss potential mitigation options.

3. Please note that, due to the size of the notification area, the preliminary heritage desktop review was limited to the proposed camp location. The helicopter clearing locations were not noted in the application; therefore, it was not possible to provide information on heritage values for these areas. If the proponent identifies work that involves land-altering activities, such as helicopter clearings, outside the assessed areas, the operator shall contact heritage.review@yukon.ca prior to conducting any land-altering activities, as additional heritage review may be required. At this time no additional land-altering activity shall take place outside the assessed claims, until clearance has been given for heritage values (other than general rock/ soil sampling, prospecting, and LiDAR survey).

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Quartz Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on June 01, 2024 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Quartz Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-667-3190, fax at 867-667-5150, or email at whitehorse.mining@yukon.ca.

Sincerely,
Paul Inglis
