Dear Timothy Liverton,

Re: Class 1 Notification Q2023_0225 - Patience Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification Q2023_0225 is valid as of July 20, 2023.

Your Class 1 Notification and proposed work program (August 01, 2023 - August 10, 2023) is allowed to proceed with the following terms and conditions:

1. The operator shall install an electric fence around the food preparation and storage area, grey water sump, and incinerator.
2. The operator shall store all attractants, including garbage, kitchen waste and strained solids from grey water in a container that prevents access by bears and other wildlife, until properly disposed of according to the Solid Waste Regulation or burned daily to ash by forced air and fuel fired incineration according to the Air Emissions Regulations.
3. The map provided identifies areas with elevated potential for heritage resources. The

operator shall not conduct land-altering activities within these areas unless prior approval has been granted by the Heritage Resources Unit. The operator may contact heritage.review@yukon.ca for more information on the areas of heritage potential or to discuss potential mitigation options.

4. An information sheet on Five-leaved Dwarf Bramble (*Rubus pedatus*), is attached and available online at: <https://yukon.ca/sites/yukon.ca/files/env/env-five-leaved-dwarf-bramble.pdf>. The operator should be familiar with the identification of Five-leaved Dwarf Bramble (*Rubus pedatus*), and if it is encountered it should be avoided and its location recorded; information should be shared with Yukon Conservation Data Center at yukoncdc@yukon.ca.
5. The operator shall cease work when any goats are observed from the active claim blocks until the goats move off on their own accord.

Security may be required at any time by the Chief. The operator must furnish security within thirty (30) days of receiving the written notice from the Chief of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Quartz Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on July 19, 2024 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Quartz Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-536-7366, fax at 867-536-7842, or email at watson.mining@yukon.ca.

Sincerely,
Paul Inglis
