Dear Acting Director,

**RE: Quartz Mining Licence QML-0011 Quarterly Wildlife Report Summer 2018**

Paragraph 13.8 of the Quartz Mining License QML-0011 issued to StrataGold Corporation requires the Licensee to provide quarterly monitoring reports on wildlife observations and incidents to the Director and the Inspector on the first working day in March, June, September, and December of each year. The information contained herein with respect to wildlife reporting represents the quarterly monitoring report and includes all observations collected in December 2018 through February 2019 (Table 1).

There were no wildlife incidents recorded during this reporting period. Site activities were ongoing through the reporting period with multiple wildlife observations. Wildlife mitigation measures continue to be implemented through mandatory Project site orientation, traffic control policies, training and implementation of the Project's management plans including the wildlife observation reporting program.

Please do not hesitate to contact me with any questions or concerns related to this report.

Sincerely,

A handwritten signature in blue ink, appearing to read 'H. Coyle', is written over a large, faint watermark of a pickaxe.

Hugh Coyle  
Land & Permitting Manager
