

June 1, 2019

Acting Director  
Mineral Resources Branch  
Yukon Government - Energy, Mines & Resources  
#400-211 Main Street, Box 2703  
Whitehorse, Yukon Y1A 2C6

To Whom It May Concern:

**RE: Quartz Mining License QML-0011 Quarterly Wildlife Report**

Paragraph 13.8 of the Quartz Mining License QML-0011 issued to StrataGold Corporation requires the Licensee to provide quarterly monitoring reports of wildlife observations and incidents to the Director and the Inspector on the first working day in March, June, September and December of each year. The information contained herein with respect to wildlife reporting represents the quarterly monitoring report and includes all observations collected in March, April and May in 2019 (Table 1).

During the period of this report there were a number of observations of bears, wolves and foxes in close proximity to the camp and areas of construction activity. The Environmental Department have contacted the Mayo Conservation Officer regarding the encounters that may require the removal of an animal. To date the removal of an animal has not occurred. Wildlife mitigation measures continue to be implemented through mandatory Project site orientation, traffic control policies, training and implementation of the Project's management plans including the wildlife observation reporting program.

Please do not hesitate to contact me with any questions or concerns related to this report.

Sincerely,

Hugh Coyle  
Lands & Permitting Manager  
StrataGold Corporation
