Dear Mr. Powell,

RE: Quartz Mining License QML-0011 Quarterly Wildlife Report

Paragraph 13.8 of the Quartz Mining License QML-0011 issued to StrataGold Corporation requires the Licensee to provide quarterly monitoring reports of wildlife observations and incidents to the Director and the Inspector on the first working day in March, June, September and December of each year. The information contained herein with respect to wildlife reporting represents the quarterly monitoring report and includes all observations collected in June, July and August in 2019 (Table 1).

Site activities were ongoing through the reporting period with multiple wildlife observations. Wildlife mitigation measures continue to be implemented through mandatory Project site orientation, traffic control policies, training and implementation of the Project's management plans including the wildlife observation reporting program.

Please do not hesitate to contact me with any questions or concerns related to this report.

Sincerely,

A handwritten signature in blue ink, appearing to read 'H. Coyle', with a long horizontal flourish extending to the right.
