**PART 7 – ACTIVITY INFORMATION**

The following information will assist in determining whether the application requires an assessment under the *Yukon Environmental and Socio-economic Assessment Act (YESAA)*. If an assessment is required, the applicant will be required to complete and submit a Form 1 application to the Designated Office under YESAA.

Complete the questions below. Attach a separate sheet if necessary. Failure to provide clear and concise detail on project activities may result in significant delays in the application review process.

Describe all land based activities to be carried out on the applied for area. Activities such as construction of buildings or structures, clearing, cutting, drilling, burning of debris, digging or any other earthworks must be clearly identified. Include use and type of any heavy machinery to be used.

Construction of a residence and septic system will be located on the lot enlargement.  
Clearing & disposal of debris from construction will be at Tagish transfer station. Earthworks will be returned to the surface after installation of the septic field to retain the natural look of the forest.  
Equipment necessary to clear a portion of the land and prepare foundation for new structure will be primary a Bobcat & Backhoe.

Provide an estimated timeline to complete development, including site preparation, construction, operation, maintenance and decommissioning.

6 months from beginning of construction to the end.

Is your project located within 1km of a year-round maintained roadway? See Appendix- A Rural Residential or Commercial/Industrial Policy for a list of year-round maintained roadways).	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
--	---

Fully explain how you will access the site if approved. Access must be clearly identified in your attached site plan. If road access already exists describe the nature of the access and if/how you may be modifying, altering or upgrading the access.

Site access will be from the existing roadway (Lupin Lane) and existing driveway. Permanent driveway access grated with Permit Number YA6F254. No modification to existing access is required.

Has Highways & Public Works been contacted?(See page 12 for contact information)	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
--	---

If yes, please provide a copy of the response you received.

Are new structure(s) being built on the site?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No
---	---

If yes, what are the size (square metres) and proposed use(s)? Ensure that your site plan clearly identifies size, location and any other relevant information including how far structures will be located from water bodies.

A portion of a new structure will extend onto this property. The structure will be no closer than 145 feet from the natural high water mark of Tagish lake.

Are existing structures being modified, decommissioned or abandoned?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
--	---

If yes, please explain

Please provide a detailed rationale for acquiring the land, and include a site plan to show how you will utilise the parcel if approved. If you are applying for a lot enlargement provide a detailed site plan of your existing titled lot and the enlargement area, detailing how you will fully utilise the enlargement area.

We estimate that approximately 50% of the existing lot is unusable for building or septic system. There is a large steep escarpment that cross sects the property and because of this natural geographic feature we were required to request a land use permit to authorize permanent access from Lupin Lane to the useful part of the property. This authorization was granted in March 2006 - Permit Number YA6F254.

It is our intent to build a home at 9 Lupin Lane with a well and septic system. The well and septic field must be separated by a minimum of 200 feet as specified by the Yukon Government - Design Specifications for Sewage Disposal Systems April 2017 [http://www.hss.gov.yk.ca/pdf/septic\\_guide.pdf](http://www.hss.gov.yk.ca/pdf/septic_guide.pdf). Due to the geography of the existing lot an enlargement is required to accommodate both the well and septic field as well as the building structure itself.

**PART 8 – APPLICANT / OWNER CONSENT**

I/we hereby acknowledge and confirm that the filing of this application does not grant me any rights to occupy or use the land for which I have applied prior to approval and completion of all the conditions attached to the disposition, should this application be approved.

## SECTION 2 - APPLICATION INFORMATION PACKAGE

Land legislation and policies are posted on the Energy, Mines and Resources public website <http://www.emr.gov.yk.ca/landmanagement/> along with other valuable lands information and mapping tools. The materials can also be found at the EMR Client Services & Inspections District Office in your region (see Page 11 for contact information) or at the Land Management Branch. **It is your responsibility as the applicant to understand the legislation, regulations, and policies that may affect the application and future use and development on the proposed site.**

The Department of Energy, Mines and Resources, Land Management Branch has the mandate to dispose of Yukon Lands under the *Lands Act* Section 3.1 and the *Territorial Lands (Yukon) Act* Section 6, as well the Department of Energy Mines and Resources, Land Planning Branch has the mandate to approve Subdivision applications under the *Subdivision Act* and the *Area Development Act*.

## INTRODUCTION

- An application to purchase, lease or licence Yukon Land may be accepted if it conforms to one of the land application policies. Land Management Branch accepts applications for lot enlargements, commercial or industrial ventures, rural residential parcels, accessory structures, trapping, big game outfitting, quarrying, utility installations and easements. Please read the relevant policy prior to submitting an application.
- Anyone interested in applying for Yukon Land should first contact Land Management Branch and/or Land Planning Branch to confirm legislation, programs, policy and if the land in questions falls under Yukon government jurisdiction.
  - Land Management and Land Planning Branch provide information sheets describing this and other land-related programs offered by the Yukon government on the EMR website <http://www.emr.gov.yk.ca/landmanagement/> OR <http://www.emr.gov.yk.ca/landplanning/index.html>

## OTHER ASSESSMENTS OR APPROVALS MAY BE REQUIRED

- Depending on the activities proposed, your application may trigger an assessment by the Yukon Environmental & Socio-economic Assessment Board (YESAB). **The outcome of the YESAB process is a recommendation** with respect to the proposed activities. An application must receive a positive recommendation or Decision Document in order to proceed.
- Depending on the nature, magnitude or location of any given application, at the discretion of Land Management Branch you may be required to undertake and provide further studies or assessments to support your application. This may include, but is not limited to environmental impact assessments, fisheries studies, geotechnical investigations and further public consultations.
- Additional approvals/permits may also be required by other agencies or government departments. This may include building permits, development permits, highway access permits, and sewage disposal approvals.

## ACCESS TO INFORMATION AND PROTECTION OF PRIVACY ACT

- The information contained in your Application for Yukon Land & Subdivision Approval will be provided to various government & community agencies for technical review. The Land Management Branch will also, as part of the review process, forward a copy of your application to adjacent or nearby property owners and any third party land users, such as trappers and outfitters. Your application will also be posted in the "Current Land Applications section" on the Land Management Branch website.
- A written request to keep business information confidential can be submitted with an application and will be considered.

## LAND APPLICATION PROCESS

- All applications are reviewed through the process outlined in the Guide to the Land Application Process document.
- **Acceptance of an application by the Land Management Branch does not imply future tenure or guarantee that a land disposition interest will be granted.**
- You may complete and submit an application for Yukon Land & Subdivision Approval if the land you are interested in is vacant Yukon Land, and if it is not subject to any other pre-existing right or interest. Only complete applications will be accepted.

## APPLICATION FEES

- All applications for Yukon Land require a \$25.00 (+ GST) non-refundable application processing fee.
- For all rural residential, commercial, industrial or institutional land applications for purchase there is a \$100.00 + GST subdivision application fee in addition to the land application fee. If the land application is denied, the full amount of the subdivision fee will be refunded. (See Rural Residential or Commercial Policy).
- For all Lot Enlargement applications, the applicant will be required to submit an Application for Subdivision Approval, and a \$100.00 + GST application fee after the land application has been approved, directly to Land Planning Branch. If the application is within the City of Whitehorse or the City of Dawson, the subdivision fee is paid directly to the municipality.
- All payments can be made in cash, debit, credit or cheque. (cheques made payable to Territorial Treasurer).

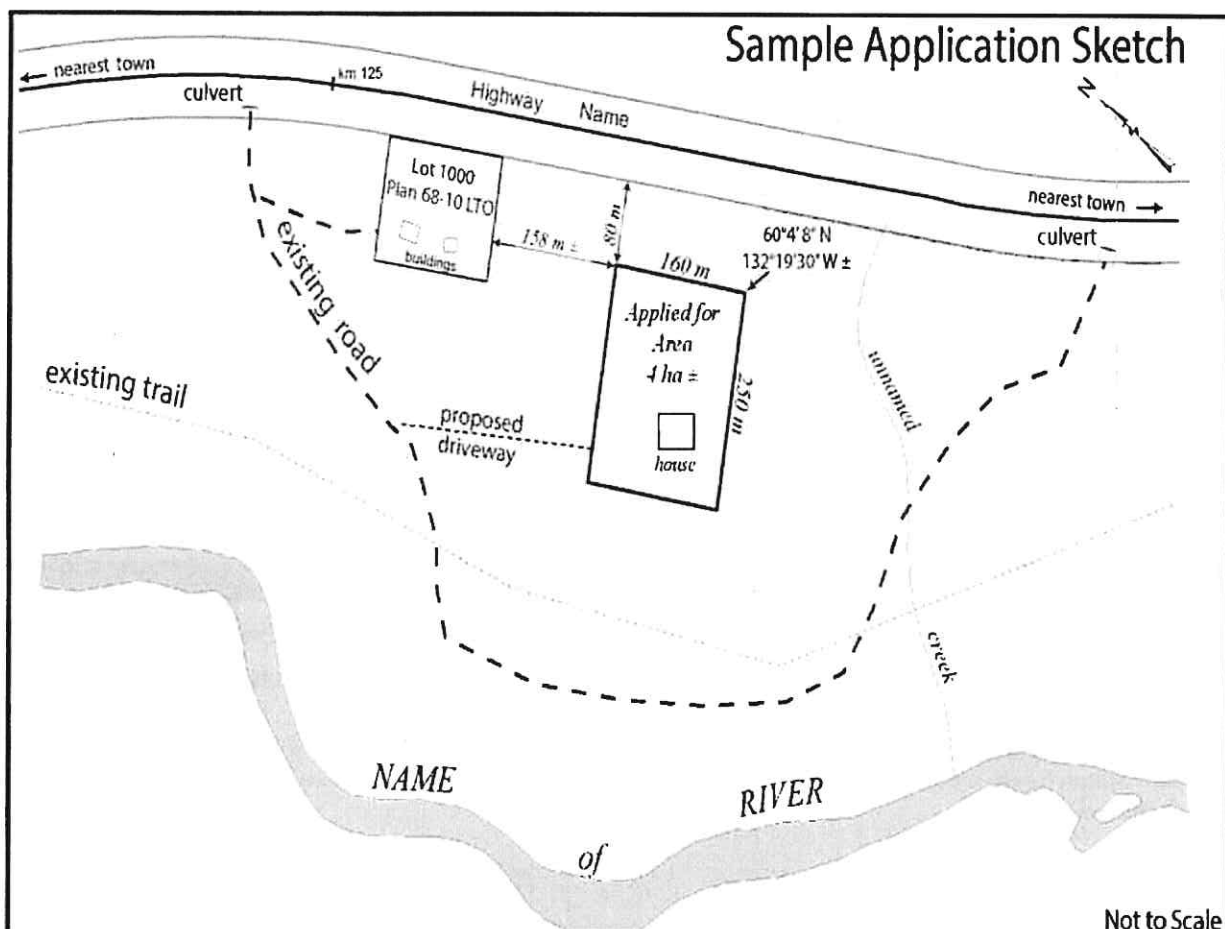

## A GENERAL LOCATION MAP AND DETAILED SITE PLAN MUST BE PROVIDED FOR ALL LAND APPLICATIONS

A general location map must show the location of the application in relation to any nearby known landmarks.

- A general location map similar to the one below can be created using Yukon Lands Viewer <http://mapservices.gov.yk.ca/Lands/Load.htm>. This online tool provides data for surveyed and non-surveyed land; land use; First Nations Traditional Territories and settlement land; Parks and Protected areas, base map and imagery.

A detailed site plan must be drawn to a legible scale, showing the proposed parcel configuration including the following:

- Configuration/location of proposed and existing lot lines
- Roads, trails, pathways located on or near the application area
- Arrow indicating north
- Water bodies, drainage courses located on or near the application area
- Location of existing or proposed improvements on or near the application area.
