### PART 7 – ACTIVITY INFORMATION

The following information will assist in determining whether the application requires an assessment under the Yukon Environmental and Socio-economic Assessment Act (YESAA). If an assessment is required, the applicant will be required to complete and submit a Form 1 application to the Designated Office under YESAA.

Complete the questions below. Attach a separate sheet if necessary. Failure to provide clear and concise detail on project activities may result in significant delays in the application review process.

Describe all land based activities to be carried out on the applied for area. Activities such as construction of buildings or structures, clearing, cutting, drilling, burning of debris, digging or any other earthworks must be clearly identified. Include use and type of any heavy machinery to be used.

The purpose of the project is to build a new trail that provides skiers with an alternate trail in the same area by creating a new loop between "Best Chance Corner" and "Gravel Pit" (see attached map). We want to built the new trail because of increased membership and a need for access to new trails for easier skiing.

The WCCSC is applying for a Land Use Permit and Licence of Occupation to make a new trail in the area between "Best Chance Corner" and "Gravel Pit" (see attached map). The new trail will be 2.5 km long and approximately 6 metres wide. This new trail will be built using about 1800 metres of older unused trails (likely old mining trails), and 730 metres of new trails to connect the older trails and current ski trails. The older existing trails will require some brushing to be usable as ski trails (see photographs in Project Description), while the new trails will require more extensive tree and brush removal.

The ski club already has a License of Occupation for its existing trails, and is requesting to have its current License of Occupation amended to include these new trails.

Further information is provided in the attached Project Description and in attached maps.

Provide an estimated timeline to complete development, including site preparation, construction, operation, maintenance and decommissioning.	
The trail development project is expected to take place between July 1 and October 31, 2022.	

Is your project located within 1km of a year-round maintained roadway?  See Appendix- A Rural Residential or Commercial/Industrial Policy for a list of year-round maintained roadways).	□ Yes	☑ No
Fully explain how you will access the site if approved. Access must be clearly identified in your attached si If road access already exists describe the nature of the access and if/how you may be modifying, altering output upgrading the access.		
The new ski trails will be accessed through the existing ski trails from Best Chance Corner (already under Occupation).	r a Licen	ce of

Please provide a detailed rationale for acquiring the land, and include a site plan to show how you will utilise the parcel if approved. If you are applying for a lot enlargement provide a detailed site plan of your existing titled lot and the enlargement area, detailing how you will fully utilise the enlargement area.

The purpose of the project is to build a new trail that provides skiers with an alternate trail in the same area by creating a new loop between "Best Chance Corner" and "Gravel Pit" (see attached map). We want to built the new trail because of increased membership and a need for access to new trails for easier skiing.

The WCCSC is applying for a land Use Permit and Licence of Occupation to make a new trail in the area between "Best Chance Corner" and "Gravel Pit" (see attached map). The new trail will be 2.5 km long and approximately 6 metres wide. This new trail will be built using about 1800 metres of older unused trails (likely old mining trails), and 730 metres of new trails to connect the older trails and current ski trails. The older existing trails will require some brushing to be usable as ski trails (see photographs in Project Description), while the new trails will require more extensive tree and brush removal.

The ski club already has a License of Occupation for its existing trails, and is requesting to have its current License of Occupation amended to include these new trails.

# PART 8 - APPLICANT / OWNER CONSENT I/we hereby acknowledge and confirm that the filing of this application does not grant me any rights to occupy or use the land for which I have applied prior to approval and completion of all the conditions attached to the disposition, should this application be approved. I/we certify that all submitted information is true and correct, to the best of my/our knowledge and belief. I/we understand that any misrepresentation in this application may invalidate this application and may result in the revocation of any disposition resulting from the misrepresentation. I/we acknowledge that the information contained in or attached to this application is being collected under the authority of the Lands Act, the Territorial Lands (Yukon) Act and the Subdivision Act to be used for the purpose of reviewing the request for land. It will be made available to government and to the public as part of the review process as per the Access to Information and Protection of Privacy Act. I/we hereby grant to Yukon government inspectors the right of access to the proposed site for inspection purposes at any time until title has been transferred or the lease/license has expired. I/we have read all of the information contained in this application or have had it explained by a third party and fully understand it. A written request to keep business information confidential is attached. Yes No I/we hereby authorize Yukon government, Land Management Branch to apply the Yukon government, Land Planning Branch for the purpose of Subdivision Approval on my/our behalf if this application is approved. I/we have read the relevant Policy(ies) and believe to the best of my knowledge that my application is in compliance with the requirements of the Policy(ies). SIGNATURE Applicant \_\_\_ Co-applicant \_\_\_\_\_ Date: SEPT. 21, 2021 FOR INTERNAL USE LMB or District Office Representative: Date:

# SECTION 2 - APPLICATION INFORMATION PACKAGE

Land legislation and policies are posted on the Energy, Mines and Resources public website <a href="http://www.emr.gov.yk.ca/landmanagement/">http://www.emr.gov.yk.ca/landmanagement/</a> along with other valuable lands information and mapping tools. The materials can also be found at the EMR Client Services & Inspections District Office in your region (see Page 11 for contact information) or at the Land Management Branch. It is your responsibility as the applicant to understand the legislation, regulations, and policies that may affect the application and future use and development on the proposed site.

The Department of Energy, Mines and Resources, Land Management Branch has the mandate to dispose of Yukon Lands under the Lands Act Section 3.1 and the Territorial Lands (Yukon) Act Section 6, as well the Department of Energy Mines and Resources, Land Planning Branch has the mandate to approve Subdivision applications under the Subdivision Act and the Area Development Act.

#### INTRODUCTION

- An application to purchase, lease or licence Yukon Land may be accepted if it conforms to one of the land
  application policies. Land Management Branch accepts applications for lot enlargements, commercial or industrial
  ventures, rural residential parcels, accessory structures, trapping, big game outfitting, quarrying, utility installations
  and easements. Please read the relevant policy prior to submitting an application.
- Anyone interested in applying for Yukon Land should first contact Land Management Branch and/or Land Planning Branch to confirm legislation, programs, policy and if the land in questions falls under Yukon government jurisdiction.
  - Land Management and Land Planning Branch provide information sheets describing this and other land-related programs offered by the Yukon government on the EMR website <a href="http://www.emr.gov.yk.ca/landmanagement/">http://www.emr.gov.yk.ca/landmanagement/</a>
     OR <a href="http://www.emr.gov.yk.ca/landmanagement/">http://www.emr.gov.yk.ca/landmanagement/</a>

# OTHER ASSESSMENTS OR APPROVALS MAY BE REQUIRED

- Depending on the activities proposed, your application may trigger an assessment by the Yukon Environmental & Socioeconomic Assessment Board (YESAB). The outcome of the YESAB process is a recommendation with respect to the
  proposed activities. An application must receive a positive recommendation or Decision Document in order to proceed.
- Depending on the nature, magnitude or location of any given application, at the discretion of Land Management
  Branch you may be required to undertake and provide further studies or assessments to support your application.
  This may include, but is not limited to environmental impact assessments, fisheries studies, geotechnical
  investigations and further public consultations.
- Additional approvals/permits may also be required by other agencies or government departments. This may include building permits, development permits, highway access permits, and sewage disposal approvals.

# ACCESS TO INFORMATION AND PROTECTION OF PRIVACY ACT

- The information contained in your Application for Yukon Land & Subdivision Approval will be provided to various
  government & community agencies for technical review. The Land Management Branch will also, as part of the
  review process, forward a copy of your application to adjacent or nearby property owners and any third party land
  users, such as trappers and outfitters. Your application will also be posted in the "Current Land Applications section"
  on the Land Management Branch website.
- A written request to keep business information confidential can be submitted with an application and will be considered.

#### LAND APPLICATION PROCESS

- · All applications are reviewed through the process outlined in the Guide to the Land Application Process document.
- Acceptance of an application by the Land Management Branch does not imply future tenure or guarantee
  that a land disposition interest will be granted.
- You may complete and submit an application for Yukon Land & Subdivision Approval if the land you are interested
  in is vacant Yukon Land, and if it is not subject to any other pre-existing right or interest. Only complete applications
  will be accepted.

# APPLICATION FEES

- All applications for Yukon Land require a \$25.00 (+ GST) non-refundable application processing fee.
- For all rural residential, commercial, industrial or institutional land applications for purchase there is a \$100.00 + GST subdivision application fee in addition to the land application fee. If the land application is denied, the full amount of the subdivision fee will be refunded. (See Rural Residential or Commercial Policy).
- For all Lot Enlargement applications, the applicant will be required to submit an Application for Subdivision Approval, and a \$100.00 + GST application fee after the land application has been approved, directly to Land Planning Branch. If the application is within the City of Whitehorse or the City of Dawson, the subdivision fee is paid directly to the municipality.
- All payments can be made in cash, debit, credit or cheque. (cheques made payable to Territorial Treasurer).

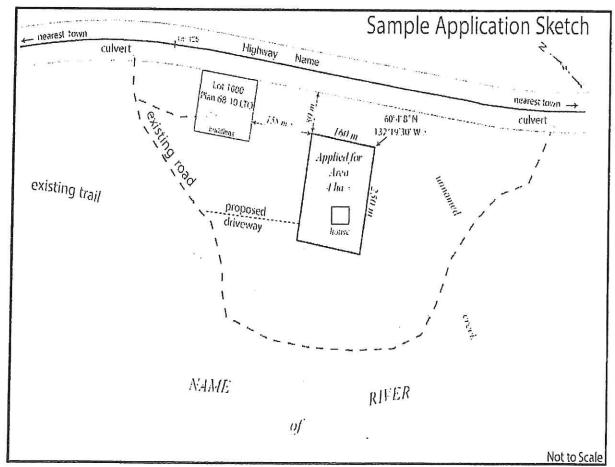

# A GENERAL LOCATION MAP AND DETAILED SITE PLAN MUST BE PROVIDED FOR ALL LAND APPLICATIONS

A general location map must show the location of the application in relation to any nearby known landmarks.

A general location map similar to the one below can be created using Yukon Lands Viewer <a href="http://mapservices.crov.vik.ca/Lands/Load.htm">http://mapservices.crov.vik.ca/Lands/Load.htm</a>. This online tool provides data for surveyed and non-surveyed land; land use; First Nations Traditional Territories and settlement land; Parks and Protected areas, base map and imagery.

A detailed site plan must be drawn to a legible scale, showing the proposed parcel configuration including the following:

- Configuration/location of proposed and existing lot lines
- Roads, trails, pathways located on or near the application area
- Arrow indicating north
- Water bodies, drainage courses located on or near the application area
- Location of existing or proposed improvements on or near the application area.

# OTHER AGENCIES & DEPARTMENTS

The following list other agencies or responsible authorities that deal with related permitting & authorizations. Based on information provided in your proposal, it is suggested that you contact the indicated agencies as further approvals may be required:
