

# APPLICATION FOR SUBDIVISION APPROVAL

### Introduction

If you are proposing to subdivide or change the surveyed boundary of your property, you must first get approval to do so from the appropriate authority. In Yukon, this includes either:

- 1. **The Government of Yukon, subdivision approving officer** (for subdivision approval anywhere in Yukon, other than Whitehorse or Dawson) or;
- 2. The City of Whitehorse (for subdivision approval within Whitehorse) or;
- 3. The City of Dawson (for subdivision approval within Dawson).

This application form deals only with subdivision approvals that fall under the jurisdiction of the Government of Yukon. (If your property is within either the City of Whitehorse or the City of Dawson, you must contact the applicable agency.)

If you are considering subdivision, consult with the Land Planning Branch to discuss your preliminary proposal and the eligibility criteria and requirements that apply to your situation. There are a number of factors that may determine if subdivision of your land is possible (physical site characteristics, access, utilities, land planning and zoning, etc.).

The Land Planning Branch can explain the subdivision approval process, review your preliminary proposal, and help determine if you are eligible to subdivide your land.

To proceed with making a formal subdivision application, it is important that you read the following instructions and information carefully.

# **Land Planning Branch**

Department of Energy, Mines and Resources Government of Yukon Box 2703 (K-320LP) Whitehorse, Yukon, Y1A 2C6

Phone: 867-667-3515

Email: landplanning@gov.yk.ca

# Application process and fees

- Complete the attached application form and make sure the information you provide is thorough and accurate. Submit all required information, documentation (such as sketches) and fees with your application.
- You must pay a non-refundable application fee of \$100.00 + \$5.00 GST = \$105.00.
- On receipt, the Land Planning Branch will review your subdivision application to ensure that it is complete and complies with applicable legislation and bylaws.
- As part of the Government of Yukon's review process, your application is distributed to various governments and community agencies for technical review. The Government of Yukon may issue a public notice. (Refer to the Access to Information and Protection of Privacy Act disclaimer on the application form.)
- Following the review process, a subdivision approving officer will decide whether to approve, approve with conditions, or deny the application.
- You will receive a formal notice of the decision.
- It may take up to 90 days from the time your application is accepted to when a decision is made.
- If your application is approved, you must hire a lands surveyor of your choice to complete a legal survey. You will have up to one year to complete and register the legal survey. Upon final approval of the survey, you are required to pay an additional approval fee of \$100.00 + \$5.00 GST = \$105.00 for each **additional** lot created to a maximum of \$1,000.00. For instance, if you begin with a single lot and it is divided into three new lots, you will be required to pay the additional approval fees of \$200.00 + \$10.00 GST = \$210.00 for the two additional lots created.
- In some cases there may be specific conditions attached to an approval. For instance, a development agreement
  may be required where there is a need for the applicant to construct road access, utilities or services to the newly
  created lots.
- If your application is denied or you do not agree with conditions imposed in your approved application, you may appeal the decision through the Yukon Municipal Board per the Subdivision Act.
- If you have questions about the application and review processes, contact the Land Planning Branch.
- Retain a copy of your application package for future reference and for your records.

### Related permitting and authorizations

The following is a list of other departments and agencies responsible for related permitting and authorizations. Depending on the nature and circumstances of your application, we suggest you contact these other agencies to find out if further approvals are required.
