Dear Callum Ryan,

Re: Class 1 Notification P2025\_0201 - Frenzy, Sabo-E, Sabo-W,NH Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification P2025\_0201 is valid as of July 03, 2025.

Your Class 1 Notification and proposed work program (July 03, 2025 - October 15, 2025) is allowed to proceed with the following terms and conditions:

1. The operator shall avoid exploration and exploration related activities in wetlands, if avoidance is not possible, the operator shall minimize disturbance to wetlands.
2. All reclamation must be completed prior to the end of the work program date identified in this Class 1 notification, including but not limited to: closure of all test pits, trenches, hand shafts, removal of camps, removal of vehicles and equipment, etc. Reclamation must be completed to the standards listed in the Operating Conditions, Schedule 1 of the Placer Mining Land Use Regulation. In areas where wetlands have been disturbed, reclamation shall be done in a manner that supports

- the return of wetland benefits to those areas.
3. The map provided identifies areas with elevated potential for heritage resources. The operator shall not conduct land-altering activities within these areas unless prior approval has been granted by the Heritage Resources Unit. The operator may contact [heritage.review@yukon.ca](mailto:heritage.review@yukon.ca) for more information on the areas of heritage potential or to discuss potential mitigation options.
  4. The notification area is in a fossil-bearing drainage. As per the Schedule 1 Operating Conditions, all palaeontological resources uncovered during operations must be reported to the Government of Yukon and the affected First Nation on whose traditional territory the resources are uncovered.
  5. The claim(s) included in the notification overlaps with wildlife key area for moose. To reduce impacts to moose, best management practices are encouraged and all wildlife should be given the right of way.
  6. You are reminded that a leave strip is required for all placer streams for the protection of riparian areas, and its dimensions are dependent on the stream's habitat suitability classification as defined in the Fish Habitat Management System for Yukon Placer Mining. Please see the document attached for more information and appropriate setbacks.

For greater certainty, the conditions contained in this Notification pertain only to my authorities under the *Placer Mining Act* and do not limit the authorizations, prohibitions, or restrictions in other federal, territorial or municipal laws.

Security may be required at any time by the Manager, Mining Land Use. The operator must furnish security within thirty (30) days of receiving the written notice from the Manager, Mining Land Use of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Placer Mining Act* and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on July 02, 2026 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Placer Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at

867-993-5343, fax at 867-993-6747, or email at dawson.mining@yukon.ca.

Sincerely,  
Jennifer Walters

A handwritten signature in blue ink, appearing to read "Jennifer Walters". The signature is fluid and cursive, with the first name being more prominent.
