Dear Jim Boyce,

Re: Class 1 Notification Q2025\_0243 - Jensen Allowed with additional terms and conditions.

This letter is to inform you that your Class 1 Notification Q2025\_0243 is valid as of July 25, 2025.

Your Class 1 Notification and proposed work program (July 25, 2025 - July 24, 2026) is allowed to proceed with the following terms and conditions:

1. The operator shall avoid exploration and exploration related activities in wetlands, if avoidance is not possible, the operator shall minimize disturbance to wetlands.
2. All reclamation must be completed prior to the end of the work program date identified in this Class 1 notification, including but not limited to: closure of all test pits, trenches, hand shafts, removal of camps, removal of vehicles and equipment, etc. Reclamation must be completed to the standards listed in the Operating Conditions, Schedule 1 of the Placer Mining Land Use Regulation/Quartz Mining Land Use Regulation. In areas where wetlands have been disturbed, reclamation

shall be done in a manner that supports the return of wetland benefits to those areas.

3. The map provided identifies areas with elevated potential for heritage resources. The operator shall not conduct land-altering activities within these areas unless prior approval has been granted by the Heritage Resources Unit. The operator may contact [heritage.review@yukon.ca](mailto:heritage.review@yukon.ca) for more information on the areas of heritage potential or to discuss potential mitigation options.
4. Please note that, due to the size of the notification area, the preliminary heritage desktop review was limited to proposed work areas. If work locations change, the operator shall contact [heritage.review@yukon.ca](mailto:heritage.review@yukon.ca) prior to conducting any land-altering activities, as additional heritage review may be required.
5. There are documented historical features (the Caribou Ditch and Burnham Creek Ditch) within the notification area, as identified on the map provided. The operator shall not engage in ground-disturbing activities within 30 m of the historic feature unless prior approval has been granted by the Chief of Mining Land Use. The operator is encouraged to contact Lee Whalen at the Historic Sites Unit ([historic.sites@yukon.ca](mailto:historic.sites@yukon.ca)) for more information on the historic sites/reserves prior to conducting any potentially ground disturbing activities.
6. The notification area is in a fossil-bearing drainage. As per the Schedule 1 Operating Conditions, all palaeontological resources uncovered during operations must be reported to the Government of Yukon and the affected First Nation on whose traditional territory the resources are uncovered.
7. There are documented historical features (the Ridge Road Trail) within the notification area, as identified on the map provided. The Ridge Road Heritage Trail is a heritage reserve managed by Tourism and Culture and Energy Mines and Resources. The operator shall not engage in ground-disturbing activities within 30 m of the heritage trail unless prior approval has been granted by the Chief of Mining Land Use. The operator is encouraged to contact Lee Whalen at the Historic Sites Unit ([historic.sites@yukon.ca](mailto:historic.sites@yukon.ca)) for more information on the historic sites/reserves prior to conducting any potentially ground disturbing activities.

For greater certainty, the conditions contained in this Notification pertain only to my authorities under the *Quartz Mining Act* and do not limit the authorizations, prohibitions, or restrictions in other federal, territorial or municipal laws.

Security may be required at any time by the Manager, Mining Land Use. The operator must furnish security within thirty (30) days of receiving the written notice from the Manager, Mining Land Use of the requirement to post security.

To help improve the environmental performance of your program, you are encouraged to refer to the attached operational guidelines. In addition, you are encouraged to contact affected First Nations to further discuss your program.

Class 1 work cannot occur on claims/leases that have lapsed or pending claims/leases until they are granted by a Mining Recorder. Please ensure the claims/leases within your Class 1 Notification are in good standing prior to beginning your work program. Any work occurring on pending or lapsed claims/leases will be in contravention of the *Quartz Mining Act*

and *Territorial Lands (Yukon) Act* and representation work conducted will not be accepted by the Mining Recorder.

Please note: the notification will expire on July 24, 2026 and all reclamation must be completed at the end of the program or prior to the expiry of this notification, whichever comes first. All proposed activities must abide by Schedule 1 (Operating Conditions) of the *Quartz Mining Land Use Regulation*. In the event that claims/leases lapse, a Class 3 or 4 authorization is issued, or that agreements to operate on claims/leases are dissolved, the Class 1 notification becomes null and void for that portion of the program, where there is no right to the minerals.

If you have any questions about this letter, please contact the district office by phone at 867-993-5343, fax at 867-993-6747, or email at [dawson.mining@yukon.ca](mailto:dawson.mining@yukon.ca).

Sincerely,  
Paul Stintzi

A/Manager, Mining Land Use
