**From** Lauren Blackburn, Manager – Lands & Regulatory (TruePoint Exploration)

**Cc:** Matthias Bindig – Registered Claim holder

Dear Sarah,

Please find following a summary of 2022 exploration activities on the Nabob claim (LQ00387).

- Operating Plan: LQ00387
  - Operator: Matthias Bindig  
Site 1, Box 15  
Keno City, YT Y0B 1M1
  - Contact: Lauren Blackburn ([lblackburn@truepointex.com](mailto:lblackburn@truepointex.com))  
Cc: Matthias Bindig ([matthiasbindig@gmail.com](mailto:matthiasbindig@gmail.com))
- 

### Summary of Activities

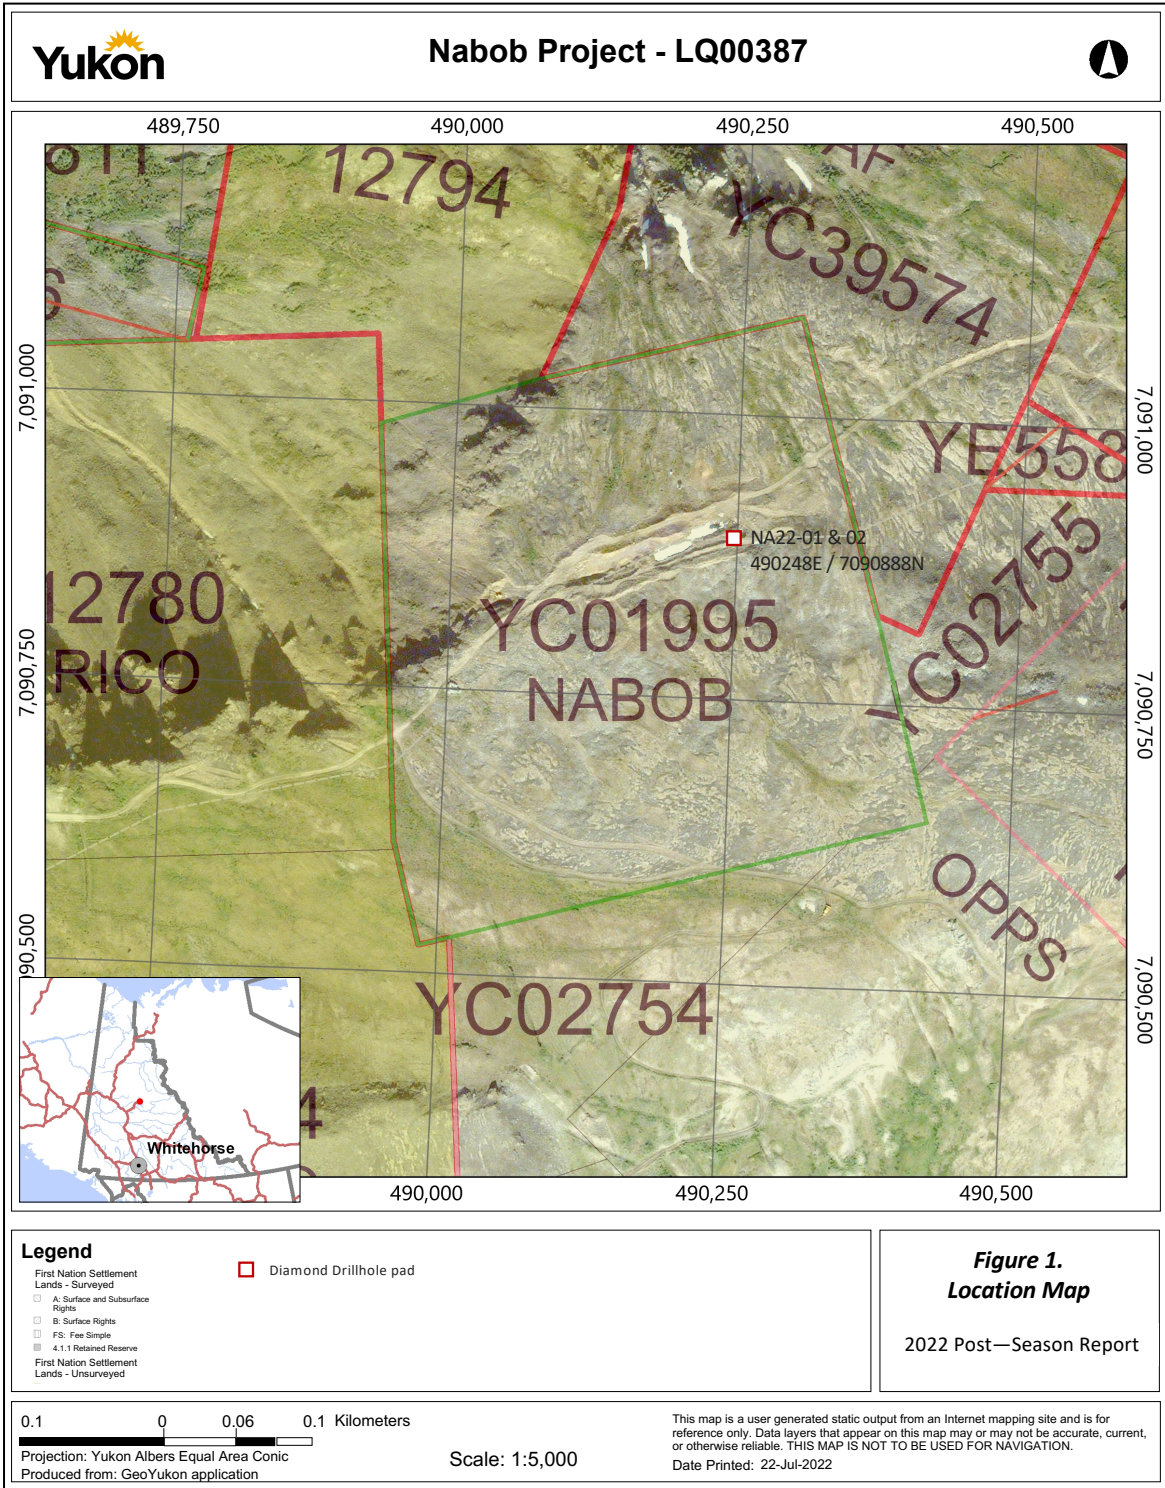

Activities on the Nabob claim for the 2022 field season were limited to drilling 2 diamond drillholes via heli-portable rig from one drill pad totaling 97m. Helicopter support was provided by Capital Helicopter's Bell 407.

**Table 1.** *Equipment Utilized*

Equipment	Type	Weight (lbs)	Used for
Diamond Drill	A5 or D1 heli-portable rig	<10,000 lbs	Diamond Drilling

DDH drilling was completed by Platinum Drilling, based out of Manitoba. Ground support was provided by TruePoint Exploration's crew, which consisted of approximately 13 people, 6 of which are local Yukon-based employees.

Figure 1. Location of Work Activities

## 1. Corridors

No new corridors were cut during the 2022 exploration program.

## 2. Trenching

No new trenches were cut during the 2022 exploration program.

## 3. & 4. Clearings & Surface Area of Clearings

During the 2022 field program diamond drilling of 2 holes was completed from a prefabricated, ~5m X 5m (*i.e.*, 25 m<sup>2</sup>) wooden, drill pad located on a previously constructed clearing (see **Photo 1**, below). **No disturbance occurred**, and no heavy equipment was brought to site for pad construction. The wooden drill pad was removed upon completion of drilling. The drill was on site from July 27<sup>th</sup> to August 1<sup>st</sup> and drilling occurred from July 29<sup>th</sup> to 31<sup>st</sup>.

**Photo 1.** Diamond drill rig on prefabricated wooden platform on the Nabob claim (490248E / 7090888N).

## 5. & 6. New Access Roads & Road Upgrades

During the 2022 field season, no access or road upgrades took place as there was no heavy equipment on site.

## 7. New Trails

No new trails were developed during the 2022 exploration program.

## 8. Off-Road Use

No off-road work was required during the 2022 program.

## 9. Total Amount of Explosives

No explosives were used during the 2022 season.

## 10. Total Disturbed Area

As aforementioned, no heavy equipment was brought to site during the 2022 season. As a result, no road upgrades, construction, or trenching was completed – there was no physical disturbance of the site.

## 11. Underground Structures

No underground structures were utilized or built during the 2022 exploration program.

## 12. Reclamation Activities

As aforementioned, no equipment work was brought to site and as a result no reclamation took place during the 2022 field season.

## 13. Status of Camp

TruePoints' staff and personnel stayed at rented accommodations in Keno City. The proponent (M. Bindig) stayed at his private/home residence.

## 14. Status of Fuel Storage

No fuel was left stored on site.

## 15. Disturbance Area – Map

There were no disturbances created on LQ00487 during the 2022 field season, please refer to **Figure 1**, (page 2) for location of drilling.

## 16. Bulk Sampling Update

No bulk sampling occurred during the 2022 exploration program.

## 17. Permafrost

No permafrost was encountered in the drilling.

Please let me know if you have any additional questions or concerns.

Respectfully submitted,

Lauren Blackburn  
Manager – Lands, Regulatory & Community Relations
