Other comments and recommendations : (include map, if necessary for clarity) – Autres commentaires et recommandations (ajouter des cartes géographiques au besoin)

The lease is clean with about 40% vegetation growth.
A roll of drilling line on a spool was located about 200 metres from the well.
The sign was set back up during the inspection.
The casing has not been cut off.
2 photos taken.

Bruce Luth
Inspected by – Inspecteur

Original to Oil Conservation Engineer
Duplicate to Field Office or Inspecting Engineer

– Original à l'ingénieur conservation des hydrocarbures
– Double au bureau local ou ingénieur chargé de l'inspection

A photograph showing two men in a field of tall grass and wildflowers. They are working on a vertical wooden post. One man, wearing a red cap and a blue jumpsuit, is standing and holding the top of the post. The other man, wearing a plaid shirt and jeans, is bent over, using a hammer to drive a nail into the post. A wooden sign is attached to the post, with text that appears to read:
LAKE RIVER
PROWNTICE
66 117 009T
WAT 15
