OIL AND MINERAL DIVISION

WELL-SITE INSPECTION REPORT

FROM: Field Office or Area: INUVIK, District #2 Date: September 21, 1972

~~Oil Conservation Engineer~~

RE: (Western Minerals) Peel Plateau Eagle Plains YT #1 (66-50-138-00)

Location: 66-48-54 — 138-08-30 Status: Suspended 8-7-58

This location was inspected by the undersigned on August 24, 1972

The location is ~~insatisfactory~~ unsatisfactory condition.

The following items require attention:

1. Piles of junk and scrap metal to be buried.
2. Wood debris to be burned.
3. Platform around well head to be tidied up or dismantled and buried.
4. Sawdust pile to be levelled.
5. Sign to be affixed to well head.
6. _____

Other comments and recommendations: (Include Map, if necessary for clarity)

Note: There appears to be another site adjacent to this one which has scrap metal and junk over entire area, including an abandoned building. The Operator is responsible for this site or sites which he has used only.

Inspected by *D. A. Bohun*
